Improvement
Program**

FY 2015 - 2019

November 2015

Mississippi Gulf Coast MPO

The Metropolitan Planning Organization (MPO) is a federally mandated planning body responsible for transportation planning in the Mississippi Gulf Coast urbanized areas. The Gulf Regional Planning Commission (GRPC) serves as the MPO for the Mississippi Gulf Coast, coordinating transportation programs for all jurisdictions within the urbanized areas of Hancock, Harrison, and Jackson Counties. It is the lead agency responsible for developing and administering plans and programs to maintain eligibility and receive federal funds for the transportation systems in the Mississippi Gulf Coast area. The primary mission of the MPO is to develop and maintain a transportation planning process that is compliant with federal and state requirements, and supports the development and enhancement of sustainable multimodal facilities, programs and systems in the Mississippi Gulf Coast area. The Transportation Improvement Program (TIP) is one of the most important products of the MPO's planning process.

What is the TIP?

The Transportation Improvement Program (TIP) is a financially constrained program developed through an on-going planning process for addressing short-term transportation priorities that are consistent with the area's long-range transportation plan (LRTP).

The MPO, in cooperation with the State(s) and any affected public transportation operator(s), shall develop a TIP for the metropolitan planning area. The TIP shall cover a period of no less than four years, be updated at least every four years, and be approved by the MPO and the Governor. However, if the TIP covers more than four years, the FHWA and the FTA will consider the projects in the additional years as informational. The TIP may be updated more frequently, but the cycle for updating the TIP must be compatible with the STIP development and approval process. (23 CFR 450.324)

The TIP is developed and approved by the MPO and is included, without modification, in the Statewide Transportation Improvement Program (STIP) following approval by the Governor. The TIP can be modified at any time subject to approval of the MPO technical and policy committees.

MPO STP funding

The TIP includes federal funding for projects provided through the Surface Transportation Program (STP) and is administered through the Federal Highway Administration (FHWA). These funds are apportioned to each state's urbanized area through the Metropolitan Planning Organization (MPO). A formula is developed to apportion these funds to each state based on that state's urbanized area population as a ratio of the nation's total urbanized area population. With the exception of certain safety projects, TIP projects are generally funded using an 80% federal/20% local ratio. For a project to be considered for inclusion in the TIP, a commitment from the sponsoring agency to provide the required local matching funds is required.

Advance Construction

The MPO uses a technique which allows a state to initiate a project using non-Federal funds while preserving eligibility for future Federal-aid funds. Eligibility means that FHWA has determined that the project technically qualifies for Federal-aid although no present or future Federal funds are committed to the project. After an advance construction project is authorized, the state may convert the project to regular Federal-aid funding provided Federal funds are made available for the project.

Public transportation operators

The TIP includes projects funded by the Federal Transit Administration (FTA) including FTA Discretionary Grant Program (Section 5309), FTA Job Access/Reverse Commute Program (5316), FTA New Freedom Program (5317), FTA Rural Transit Program (Section 5311), FTA Transportation Planning Program (Section 5303), Handicapped Transportation Program (Section 5310) FTA Elderly.

MDOT projects

Although not specifically listed in the Gulf Coast TIP, the Mississippi Department of Transportation (MDOT) must get approval from the MPO regarding the allocation of funds to projects in the Gulf Coast urbanized area from sources such as: Interstate Maintenance, Bridge Replacement, National Highway System, Surface Transportation Program, and others. More information on these funding sources can be found in MDOT's Statewide Transportation Program.

Safety projects

The Mississippi Gulf Coast MPO will set aside 10% of the gulf coast's Surface Transportation Program (STP) funds for projects to enhance the safe mobility of all modes of transportation on the Mississippi Gulf Coast. The Federal share payable on account of any project for traffic control signalization, maintaining minimum levels of retroreflectivity of highway signs or pavement markings, traffic circles (also known as "roundabouts"), safety rest areas, pavement marking, shoulder and centerline rumble strips and stripes, commuter carpooling and vanpooling, rail-highway crossing closure, or installation of traffic signs, traffic lights, guardrails, impact attenuators, concrete barrier endtreatments, breakaway utility poles, or priority control systems for emergency vehicles or transit vehicles at signalized intersections may amount to 100 percent of the cost of construction of such projects; except that not more than 10 percent of all sums apportioned for all the Federal-aid programs for any fiscal year in accordance with section 104 of this title shall be used under this subsection. In this subsection, the term "safety rest area" means an area where motor vehicle operators can park their vehicles and rest, where food, fuel, and lodging services are not available, and that is located on a segment of highway with respect to which the Secretary determines there is a shortage of public and private areas at which motor vehicle operators can park their vehicles and rest. *Title 23 USC Sec. 120(c) (1)*

TAP projects

The Transportation Alternatives Program (TAP) is eligible for funding under the Surface Transportation Program (STP). The TAP was established under the Moving Ahead for Progress in the 21st Century (MAP-21) of 2012 and replaces the Transportation Enhancement Program (TEP), Safe Routes to School Program (SRSP), as well as the Recreational Trails Program (RTP).

Bicycle, pedestrian and transit projects

The Mississippi Gulf Coast MPO will set aside 10% of the gulf coast's Surface Transportation Program (STP) funds for projects to improve bicycle, pedestrian and transit accessibility and mobility in the region. An independent walkway project must be constructed on highway right-of-way or easement. Independent walkway projects are constructed separately from a Federal-aid highway construction project.

MPO studies/projects

The Mississippi Gulf Coast MPO will set aside \$400,000 in STP funds annually for the purpose of developing and implementing projects that directly support the MPO goals and objectives. Each year a project (or projects) will be selected by GRPC for funding through this program. Project(s) are based on needs identified through the agency's transportation planning process toward the provision of an efficient, safe and accessible transportation system for all modes. Projects considered for

funding through this program include: various intersection improvement projects that enhance traffic flow and/or safety; projects that enhance transportation modal options (bike/pedestrian, transit, etc.); projects that improve roadway safety; intersection analyses; corridor studies; safety audits; and others.

TIP development process

The TIP is updated every two years in order to allocate projected available funding to projects. Every six months GRPC will initiate an amendment and evaluation process to consider existing project funding increases and the addition of “new” projects funded with gulf coast STP funds based on the availability of existing funds in the financially constrained TIP. Recommendations are made by the sub-committee of MPO’s Technical Coordinating Committee (TCC) and the full TCC and then adoption by the Transportation Policy Committee (TPC). Then the TIP is submitted to MDOT for approval and then Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) shall jointly find that each metropolitan TIP is consistent with the metropolitan transportation plan produced by the continuing and comprehensive transportation process carried on cooperatively by the MPO.

Public review

As required in CFR 450.316, The MPO maintains a Public Participation Plan (PPP) that defines a process for providing interested parties with a reasonable opportunity to comment on the proposed TIP including at least one public meeting.

APPENDIX I

Public Involvement Activities

Fall 2013 Transportation Improvement Program (TIP) Update

As described in the MPO's *TIP Handbook*, A new TIP is developed every two years. The MPO provided opportunity for member jurisdictions to submit requests for new TIP projects and existing TIP funding increases. The deadline for applications was July 31, 2013. During the month of August, MPO staff reviewed the project applications and evaluated the requests. A prioritized list of projects was developed based on the impact of each project on the MPO's goals and objectives (*criteria listed below*). This list was used as a resource to make recommendations of which projects to allocate the available Mississippi Gulf Coast's Surface Transportation Program (STP) funds. The TCC subcommittee met on August 29th to finalize the recommendations to be presented to the Technical Coordinating Committee (TCC) on September 12th and then the Transportation Policy Committee (TPC) on October 24th.

Public Review Process

1. The MPO ran a public review and comment period from August 12 – September 26th. A notice was run in the Sun Herald on August 12th informing the public of where to find information the projects that were being considered and the TIP update process.
2. An ad was run in the Sun Herald on Monday September, 2nd informing the public of the following public meetings regarding the proposed TIP projects.
 - *Jackson County - Sept. 3rd*
4-6pm at Gautier Public Library: 2100 Library Lane, Gautier MS
 - *Harrison County - Sept. 4th*
4-6pm at Biloxi Transit Center: 190 Reynoir St Biloxi, MS
 - *Hancock County - Sept. 5th*
4-6pm at Bay St Louis Public Library: 312 U.S. 90 Bay St Louis, MS

TIP Public Review Notice:
8.12.2013
TRANSPORTATION IMPROVEMENT PROGRAM (TIP)
Public Review & Comment Period
Aug. 12th - Sept. 26th
The Mississippi Gulf Coast Metropolitan Planning Organization (MPO) has released for public review and comment the proposed 2014-2017 TIP updates. The TIP specifies how federal funds are allocated for roadway and transit projects across the region (Hancock, Harrison and Jackson Counties.) It lists which projects will be implemented over the next four years. Suggested TIP updates include adding new projects as well as funding and scope changes.
To view TIP materials, request assistance and to provide comments, please contact us:
1. Online at www.grpc.com
2. In person at one of three public meetings: Sept. 3rd, 4th and 5th
3. Email: contactus@grpc.com
4. Phone: 228-864-1167
5. Fax: 228-864-1149
6. In person or by mail to 1232 Pass Rd, Gulfport 39501
The MPO is planning to adopt the updated TIP at the Transportation Policy Committee Meeting scheduled for October 24th, 2013. The meeting is scheduled for 10:30am at the Biloxi Development Commission, 676 Martin Luther King Blvd. Members of the public are invited to attend.
ADV12,1MON 1522382

MS GULF COAST MPO IS UPDATING OUR REGIONAL TRANSPORTATION IMPROVEMENT PROGRAM (TIP).

Visit our website, www.grpc.com, to review TIP information and the proposed update materials. To find out more about MPO transportation planning activities and to provide your comments contact us by emailing contactus@grpc.com, by calling 228-864-1167, by faxing 228-864-1149 or by attending one of three scheduled public meetings.

- **Jackson Co.** – September 3rd; 4-6pm at Gautier Public Library
- **Harrison Co.** – September 4th; 4-6pm at Biloxi Transit Center
- **Hancock Co.** – September 5th; 4-6pm at Bay St Louis Public Library

3. On October 13, 2013, another ad was run providing notice and opportunity to comment on the final projects that were being recommended for adoption into the TIP.

Criteria for roadway project evaluation

Congestion – Projects that are located on segments of roadway that are experiencing congestion according to the MPOs Congestion Management Plan were given one or two points based on the severity of the congestion.

Economic Development – The MPO’s travel demand model’s 2035 employment forecasts were used to determine the economic impact of each project. GIS was used to compile the number of employees that are projected within a half mile radius of these projects. An average was compiled and the projects that were in the vicinity of an above average number of employees were give one point.

Traffic Operations – Projects that improved intersections were given one point.

Functional Class – Projects on primary arterials were given two points and projects on minor arterials were given one point.

Safety – Accidents with injury per year ration was calculated considering traffic counts. The ratios for each project were averaged and the projects that had an above average ratio were given three points.

Title VI – Project received one point if it was located within an MPO identified low-income area or minority area.

Pedestrian/Bike – Each project received two points if it included sidewalks and three points if it included bike lanes

PUBLIC NOTICE
REVIEW PERIOD: OCT.
14-24
In compliance with federal regulations 23 CFR 450, the Mississippi Gulf Coast Metropolitan Planning Organization (MPO) is seeking the public's input on proposed amendments to the FY 2012-2015 Transportation Improvement Program (TIP). This document includes all projects to be funded using the Gulf Coast's allocation of Surface Transportation Program (STP) funds, which are allocated by the Federal Highway Administration through the Mississippi Department of Transportation. The projects are based on local short term priorities set by the jurisdictions within the urbanized areas of Hancock, Harrison, and Jackson Counties. Also listed in this document is Coast Transit Authority's Program of Projects that are funded by the Federal Transit Administration. This public comment period satisfies the public participation requirements for the FTA Section 5307 and 5309 POP notice. To view the recommended amendments go to www.grpc.com or pick up hard copies at 1635-G Popps Ferry Road, Biloxi or 333 DeBuys Road, Gulfport. Comments can be submitted at those addresses, by phone at 228-864-1167 or by fax to 228-864-1149. The proposed CTA program of projects will be final unless revised as a result of public comment. It is the policy of the MPO not to discriminate. Best efforts will be made to provide reasonable assistance when requested five (5) business days prior to any scheduled event or activity. Submit assistance requests to Stephanie at 228-864-1167 or by email to contactus@grpc.com.

4. CTA – Expansion of the Gulfport Transit Center Intermodal Hub. \$6,560,000 (FTA) \$1,640,000 (CTA) Add Project.

OCTOBER 2014

Modifications

1. Advance construction strategy was implemented

MARCH 2015

Modifications

1. Added \$1,550,000 in TE funds under the TAP group in 2015

Proposed FY 2014-2018 TIP Amendments
In compliance with federal regulations 23 CFR 450, the Mississippi Gulf Coast Metropolitan Planning Organization (MPO) is seeking the public's input on proposed amendments to the FY 2014-2018 Transportation Improvement Program (TIP). This document includes all projects to be funded using the Gulf Coasts' allocation of Surface Transportation Program (STPJ) funds, which are allocated by the Federal Highway Administration through the Mississippi Department of Transportation. The projects are based on local short term priorities set by the jurisdictions within the urbanized areas of Hancock,

Harrison, and Jackson Counties. Also listed in this document is Coast Transit Authority's Program of Projects that are funded by the Federal Transit Administration. The public meetings/comment period will satisfy the public participation requirements for the FTA Section 5307 and 5309 POP notice. The proposed CTA Program of projects will be final unless revised as a result of public comment. The proposed amendments are:
1. Ocean Springs Porter Ave/Martin Ave to Howard Ave. Remove Project.
2. Jackson County Hwy 57/Old Spanish Trl to US 90. Remove Project.
3. CTA Purchase replacement mobile surveillance equipment. \$128,000 (FTA) \$32,000 (CTA) Add Project.
4. CTA Expansion of the Gulfport Transit Center Intermodal Hub. \$6,560,000 (FTA) \$1,640,000 (CTA) Add Project.
