

FY 2017-2020
Mississippi Gulf Coast
Metropolitan Planning Organization

Adopted August 25, 2016

Mississippi Gulf Coast Transportation Improvement Program

Mississippi Gulf Coast MPO

The Metropolitan Planning Organization (MPO) is a federally mandated planning body responsible for transportation planning in the Mississippi Gulf Coast urbanized areas. The Gulf Regional Planning Commission (GRPC) serves as the MPO for the Mississippi Gulf Coast, coordinating transportation programs for all jurisdictions within the urbanized areas of Hancock, Harrison, and Jackson Counties. It is the lead agency responsible for developing and administering plans and programs to maintain eligibility and receive federal funds for the transportation systems in the Mississippi Gulf Coast area. The primary mission of the MPO is to develop and maintain a transportation planning process that is compliant with federal and state requirements, and supports the development and enhancement of sustainable multimodal facilities, programs and systems in the Mississippi Gulf Coast area. The Transportation Improvement Program (TIP) is one of the most important products of the MPO's planning process.

What is the TIP?

The Transportation Improvement Program (TIP) is a financially constrained program developed through an on-going planning process for addressing short-term transportation priorities that are consistent with the MS Gulf Coast's Metropolitan Transportation Plan (MTP), the long-range transportation plan for our region.

The MPO, in cooperation with the State(s) and any affected public transportation operator(s), shall develop a TIP for the metropolitan planning area. The TIP shall cover a period of no less than four years, be updated at least every four years, and be approved by the MPO and the Governor. However, if the TIP covers more than four years, the FHWA and the FTA will consider the projects in the additional years as informational. The TIP may be updated more frequently, but the cycle for updating the TIP must be compatible with the STIP development and approval process. (23 CFR 450.324)

The TIP is developed and approved by the MPO and is included, without modification, in the Statewide Transportation Improvement Program (STIP) following approval by the Governor. The TIP can be modified at any time subject to approval of the MPO technical and policy committees.

MPO STP funding

The TIP includes federal funding for projects provided through the Surface Transportation Program (STP) and is administered through the Federal Highway Administration (FHWA). These funds are apportioned to each state's urbanized area through the Metropolitan Planning Organization (MPO). A formula is developed to apportion these funds to each state based on that state's urbanized area population as a ratio of the nation's total urbanized area population. With the exception of certain safety projects, TIP projects are generally funded using an 80% federal/20% local ratio. For a project to be considered for inclusion in the TIP, a commitment from the sponsoring agency to provide the required local matching funds is required.

Advance Construction

The MPO uses a technique which allows a state to initiate a project using non-Federal funds while preserving eligibility for future Federal-aid funds. Eligibility means that FHWA has determined that the project technically qualifies for Federal-aid although no present or future Federal funds are committed to the project. After an advance construction project is authorized, the state may convert the project to regular Federal-aid funding provided Federal funds are made available for the project.

Public transportation operators

The TIP includes projects funded by the Federal Transit Administration (FTA) including FTA Discretionary Grant Program (Section 5309), FTA Job Access/Reverse Commute Program (5316), FTA New Freedom Program (5317), FTA Rural Transit Program (Section 5311), FTA Transportation Planning Program (Section 5303), Handicapped Transportation Program (Section 5310) FTA Elderly.

MDOT projects

Although not specifically listed in the Gulf Coast TIP, the Mississippi Department of Transportation (MDOT) must get approval from the MPO regarding the allocation of funds to projects in the Gulf Coast urbanized area from sources such as: Interstate Maintenance, Bridge Replacement, National Highway System, Surface Transportation Program, and others. More information on these funding sources can be found in MDOT's Statewide Transportation Program.

Safety projects

The Mississippi Gulf Coast MPO will set aside 10% of the gulf coast's annual Surface Transportation Program (STP) funds for stand alone projects that will enhance the safe mobility of all modes of transportation on the Mississippi Gulf Coast. Specified safety projects are eligible for 100% funding.

Specified projects include: traffic control signalization, maintaining minimum levels of retroreflectivity of highway signs or striping, traffic circles/roundabouts, safety rest areas, pavement markings, shoulder and centerline rumble strips and stripes, commuter carpooling and vanpooling, rail crossing improvements, installation of traffic signs, traffic lights, guardrails, impact attenuators, concrete barrier endtreatments, breakaway utility poles, or priority control systems for emergency vehicles or transit vehicles at signalized intersections. Read the full guidance at Title23USC.Sec. 120(c) (1)

TAP projects

The Transportation Alternatives Program (TAP) is eligible for funding under the Surface Transportation Program (STP). The TAP was established under the Moving Ahead for Progress in the 21st Century (MAP-21) of 2012 and replaces the Transportation Enhancement Program (TEP), Safe Routes to School Program (SRSP), as well as the Recreational Trails Program (RTP).

Bicycle, pedestrian and transit projects

The Mississippi Gulf Coast MPO will set aside 10% of the gulf coast's Surface Transportation Program (STP) funds for projects that will improve bicycle, pedestrian and transit accessibility and mobility in the region. An independent walkway project must be constructed on highway right-of-way or easement and will be constructed separately from a Federal-aid highway construction project.

MPO studies/projects

The Mississippi Gulf Coast MPO will set aside \$400,000 in STP funds annually for the purpose of developing and implementing projects that directly support the MPO goals and objectives. Each year a project (or projects) will be selected by GRPC for funding through this program. Project(s) are based on needs identified through the agency's transportation planning process toward the provision of an efficient, safe and accessible transportation system for all modes. Projects considered for funding through this program include: various intersection improvement projects that enhance traffic flow and/or safety; projects that enhance transportation modal options (bike/pedestrian, transit, etc.); projects that improve roadway safety; intersection analyses; corridor studies; safety audits; and others.

TIP development process

The TIP is updated every two years in order to allocate projected available funding to projects. Every six months GRPC will initiate an amendment and evaluation process to consider existing project funding increases and the addition of "new" projects funded with gulf coast STP funds based on the availability of existing funds in the financially constrained TIP. Recommendations are made by the sub-committee of MPO's Technical Coordinating Committee (TCC) and the full TCC and then adoption by the Transportation Policy Committee (TPC). Then the TIP is submitted to MDOT for approval and then Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) shall jointly find that each metropolitan TIP is consistent with the metropolitan transportation plan produced by the continuing and comprehensive transportation process carried on cooperatively by the MPO.

Public review

As required in CFR 450.316, The MPO maintains a Public Participation Plan (PPP) that defines a process for providing interested parties with a reasonable opportunity to comment on the proposed TIP including at least one public meeting. This update included a public review period from July 3rd to August 19th. The MPO held 5 public meetings during that period. The draft was reviewed and adopted on August 25th at a joint TCC-TPC meeting. Supporting documents from the public review period are included as Appendix A.

For more information and when and how to participate in the public review and comment period visit www.grpc.com or contact Stephanie Plancich at splancich@grpc.com by calling 228-864-1167. You may also mail or make comments at the GRPC offices located at 1635-G Popps Ferry Road, Biloxi MS, 39532.

FY17-20 TIP Update: Public Participation Summary Report

Early in the planning process, the MS Gulf Coast MPO created and disseminated a TIP development schedule to ensure obligations for involvement and input were being met as well as to align our process with that of the state DOT. That schedule with descriptions throughout the process is documented in this appendix.

1. Application Period

Every jurisdiction received a letter from the MPO alerting them that project applications for the TIP, including both STP and TAP funds, would be accepted from February 11th to May 13th.

The schedule and our progress on it was discussed at every MPO meeting and notice was put prominently on the GRPC/MPO website homepage and a page was created within the website to specifically allow for review of TIP materials and submitting comments and questions.

2. Field Reviews

On May 24th and 25th the MPO staff and MDOT representatives conducted field reviews to determine the feasibility of the requested projects and to start discussion on probable obligation years.

3. TCC Review

At the May 26th Technical Coordinating Committee (TCC) meeting, MPO members were able to review and discuss the proposed new projects and updates/changes recommended for some of the existing projects.

Public notice was given of this meeting in the Sun Herald legal ad section the week before of day of the meeting.

4. TPC Review

MPO staff with MDOT and FHWA support, continued to develop the draft TIP over the next month. The Transportation policy Committee (TPC) reviewed and approved the draft program to go to public review at their meeting on June 30th.

In anticipation of this approval, MPO staff had secured 5 public meetings dates and times and distributed that information out to the members and guests in attendance. The 45 day public review period was schedule to align with the state's process from July 5th to August 19th.

Public notice was given of this meeting in the Sun Herald legal ad section the week before of day of the meeting.

5. Public Meetings

Notice of the public events was done as a large display ad in both the Sea Coast Echo and Sun Herald newspapers. It listed several methods available for reviewing the draft TIP and STIP and encourage people to submit their comments. The ad also listed the open-house style public events. There were spread across the region at varying times and when possible held in conjunction with another local event. The meeting schedule was:

7/18/16 - 4:30-6:00 - St. Martin Community Center, Lemoyne Boulevard

7/19/16 - 12-1:30pm - Gulfport City Hall, 2309 15th Street

*7/19/16 - 4:00-6:00pm - D'Iberville City Hall, Automall Parkway *Joint MDOT & CTA meeting*

7/20/16 - 12-1:30pm - Diamonhead City Hall, Diamonhead Circle

7/12016 - 5:00-6:30pm - Waveland City Hall, Coleman Avnuee

Public Comments Received

Throughout the public review process, three comments were received. None of which impact the TIP as drafted.

1. Where can we find information about the Cook Road project? MPO staff spoke with him about project progress and let him know that it is not currently included on the TIP but Jackson County is actively pursuing the project for the near future. He provided contact information to the county for the man to follow up with.
2. What is being done to get the Port Connector project underway, especially with the new Love's truck stop under construction? MPO staff informed the guest that momentum for the project has been stalled if not stopped mainly due to community impact concerns. We referred him to MDOT staff that were on site for further discussion and to answer his questions more in depth.
3. Will there be a roundabout put in at Shriners and Woolmarket Road? MDOT staff responded that there is not one planned at this time. However, later in conversation the guest commented about losing the yield sign at the interchange and was informed that MDOT will be installing small roundabouts at those interchange intersections to improve safety at those locations.

TIP Adoption

In accordance with CFR 450 and the MPO Public Participation Plan, a 45 day public review and comment period was observed prior to the Transportation Policy Committee of the MPO voting to adopt the drafted FY2017-2020 Transportation Improvement Program.

The final MPO meeting to review the draft document, comments recieved and then vote to adopt was a joint TCC/TPC meeting held on August 25th, 2016. The planned September meeting of the TPC was cancelled and joined into the August date to allow the state enough time to finalize the STIP before the end of the current fiscal year. The motion to adopt was made by Mr. Clovis Reed(Diamondhead). Seconded by Joe Huffman (Pascagoula). Passed unanimously.

February 15, 2016

Mayor Tommy Schafer
City of Diamondhead
5000 Diamondhead Circle
Diamondhead, MS 39525

Dear Mayor Schafer:

We are in the process of developing the FY 2017-2020 Transportation Improvement Program (TIP) for the urbanized areas of the three coastal counties. The TIP is a listing of projects for which Surface Transportation Program (STP) funding and/or other federal funding has been allocated. We anticipate having approximately \$6 million in regular MPO STP funds, and \$900,000 in Transportation Alternatives Program (TAP) funds available for allocation this year. Separate application forms for each funding source are attached, and will be accepted until Friday, May 13.

MDOT is requiring that we submit our draft listing of proposed TIP projects by the end of June. The Technical Coordinating Committee (TCC) will meet on May 26 to discuss and develop a draft for Transportation Policy Committee (TPC) consideration for approval on June 30. Please confer with your MPO representative(s) regarding submittal of any proposed TIP projects. A signed resolution (attached) from your jurisdiction is required with each application.

The MPO has adopted a Complete Streets Policy, so please bear in mind that projects wherein complete streets components are substantially addressed will receive elevated rankings in the project selection process. If you need assistance, or have any questions regarding this process, please call me or Kenneth Yarrow at 864-1167.

We look forward to working with you to develop and implement needed transportation improvement projects which provide maximum benefits to our traveling public.

Sincerely,

A handwritten signature in blue ink, appearing to read "David Taylor", is positioned below the "Sincerely," text.

David Taylor, Planning Director
Gulf Regional Planning Commission

FY2017-2020 TIP Review

[FY2017-2020 TIP \(DRAFT\)](#) [VIEW STATE PUBLIC NOTICE](#) [VIEW MPO PUBLIC NOTICE](#)

Click Here to email your comments to GRPC/MS Gulf Coast MPO staff

In 2016, the MS Gulf Coast MPO is tasked with updating our region's Transportation Improvement Program (TIP). The TIP lists the transportation projects expected to be funded within the next four year period. Project applications for FY2017-2020 were accepted from February 11th through May 13th, 2016.

The Technical Coordinating Committee (TCC) reviewed the submissions and made a recommendation for approval to the Transportation policy Committee (TPC). The TPC approved the draft TIP for public review on June 30th. The **review and comment period will run from June 3rd to August 19th**. There are five public open-house style meetings scheduled for members of the community and other interested parties to share their thoughts, ideas and other feedback with the planning staff.

- 1 July 18th—4:30-6:00pm: St. Martin Community Center, 15008 Lemoine Boulevard
- 2 July 19th—12:00-1:30pm: Gulfport City Hall, 2309 25th Avenue
- 3 July 19th—4:00-6:00pm: D'Iberville City Hall, 10383 Auto Mall Parkway *MDOT staff attending this meeting
- 4 July 20th—12:00-1:30pm: Diamondhead City Hall, 5000 Diamondhead Circle
- 5 July 20th—4:00-6:00pm: Waveland City Hall, 301 Coleman Avenue

The Mississippi Dept. of Transportation (MDOT) will be attending the D'Iberville event to gather public input on the Statewide Transportation Improvement Program (STIP). If you'd like to talk about projects in other parts of the state or on any of the state maintained roadways in our area, plan to attend this event or contact MDOT staff at 601-359-7565 or email inetherland@mdot.ms.gov to receive an electronic copy of their plan.

**Both MDOT and GRPC/MPO prohibit discrimination in their planning processes. If you need auxiliary aids or other assistance to participate in the public review and comment process please call Stephanie at 228-864-1167 or email her at contactus@grpc.com to make your request at least 5 business days before any planned event or the end of the review period.*

Notice of Public Open House

Ever wonder how roadway improvement projects in your community get selected and funded?

Gulf Regional Planning Commission, the MS Gulf Coast MPO, helps manage how federal transportation improvement dollars are invested across our three county region. It's a process coordinated closely with the Mississippi Department of Transportation and your local city and county officials.

Together they review roadway improvement requests and develop a list of projects expected to be funded over the next 4 fiscal years. This list is called the MS Gulf Coast Transportation Improvement Program (TIP).

The new FY2017-2020 TIP has just been drafted.

View the proposed projects online at www.grpc.com or in person at one of five open house events. **We want to hear from you!**
