**Non-Discrimination Notification:**

GRPC prohibits discrimination in all of its programs, services and activities. Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability, or other protected status. Persons who require assistance under the Americans with Disabilities Act should contact the MPO at least five (5) business days prior to the any scheduled meeting, event or the end of a public review and comment period. Contact Stephanie Plancich at 228-864-1167 or by email to [contactus@grpc.com](mailto:contactus@grpc.com) with any requests, questions or comments.

**Notation of Financial Assistance:**

This document was prepared and published by Gulf Regional Planning Commission, the Mississippi Gulf Coast Metropolitan Planning Organization (MPO), in cooperation with or with financial assistance from the United States Department of Transportation (USDOT), the Federal Transit Administration (FTA), the Federal Highway Administration (FHWA) and the Mississippi Department of Transportation (MDOT). Assistance notwithstanding, the contents of this document do not necessarily reflect the official view or policies of the funding agencies.

**Notice of Public review:**

In compliance with federal regulation 23 CFR 450 and the FTA public participation requirements of the Section 5307 POP notice, the Mississippi Gulf Coast Metropolitan Planning Organization (MPO) sought public input from 5/3/2017 through 5/13/2017 prior to adopting this amended Transportation Improvement Program (TIP). The public participation summary is included in the Appendix of this document.

## Mississippi Gulf Coast Transportation Improvement Program

### Mississippi Gulf Coast MPO

The Metropolitan Planning Organization (MPO) is a federally mandated planning body responsible for transportation planning in the Mississippi Gulf Coast urbanized areas. The Gulf Regional Planning Commission (GRPC) serves as the MPO for the Mississippi Gulf Coast, coordinating transportation programs for all jurisdictions within the urbanized areas of Hancock, Harrison, and Jackson Counties. It is the lead agency responsible for developing and administering plans and programs to maintain eligibility and receive federal funds for the transportation systems in the Mississippi Gulf Coast area. The primary mission of the MPO is to develop and maintain a transportation planning process that is compliant with federal and state requirements, and supports the development and enhancement of sustainable multimodal facilities, programs and systems in the Mississippi Gulf Coast area. The Transportation Improvement Program (TIP) is one of the most important products of the MPO's planning process.

### What is the TIP?

The Transportation Improvement Program (TIP) is a financially constrained program developed through an on-going planning process for addressing short-term transportation priorities that are consistent with the MS Gulf Coast's Metropolitan Transportation Plan (MTP), the long-range transportation plan for our region.

*The MPO, in cooperation with the State(s) and any affected public transportation operator(s), shall develop a TIP for the metropolitan planning area. The TIP shall cover a period of no less than four years, be updated at least every four years, and be approved by the MPO and the Governor. However, if the TIP covers more than four years, the FHWA and the FTA will consider the projects in the additional years as informational. The TIP may be updated more frequently, but the cycle for updating the TIP must be compatible with the STIP development and approval process. (23 CFR 450.324)*

The TIP is developed and approved by the MPO and is included, without modification, in the Statewide Transportation Improvement Program (STIP) following approval by the Governor. The TIP can be modified at any time subject to approval of the MPO technical and policy committees.

### MPO STP funding

The TIP includes federal funding for projects provided through the Surface Transportation Program (STP) and is administered through the Federal Highway Administration (FHWA). These funds are apportioned to each state's urbanized area through the Metropolitan Planning Organization (MPO). A formula is developed to apportion these funds to each state based on that state's urbanized area population as a ratio of the nation's total urbanized area population. With the exception of certain safety projects, TIP projects are generally funded using an 80% federal/20% local ratio. For a project to be considered for inclusion in the TIP, a commitment from the sponsoring agency to provide the required local matching funds is required.

### Advance Construction

The MPO uses a technique which allows a state to initiate a project using non-Federal funds while preserving eligibility for future Federal-aid funds. Eligibility means that FHWA has determined that the project technically qualifies for Federal-aid although no present or future Federal funds are committed to the project. After an advance construction project is authorized, the state may convert the project to regular Federal-aid funding provided Federal funds are made available for the project.

### Public transportation operators

The TIP includes projects funded by the Federal Transit Administration (FTA) including FTA Discretionary Grant Program (Section 5309), FTA Job Access/Reverse Commute Program (5316), FTA New Freedom Program (5317), FTA Rural Transit Program (Section 5311), FTA Transportation Planning Program (Section 5303), Handicapped Transportation Program (Section 5310) FTA Elderly.

### MDOT projects

Although not specifically listed in the Gulf Coast TIP, the Mississippi Department of Transportation (MDOT) must get approval from the MPO regarding the allocation of funds to projects in the Gulf Coast urbanized area from sources such as: Interstate Maintenance, Bridge Replacement, National Highway System, Surface Transportation Program, and others. More information on these funding sources can be found in MDOT's Statewide Transportation Program.

### **Safety projects**

The Mississippi Gulf Coast MPO will set aside 10% of the gulf coast's annual Surface Transportation Program (STP) funds for stand alone projects that will enhance the safe mobility of all modes of transportation on the Mississippi Gulf Coast. Specified safety projects are eligible for 100% funding.

Specified projects include: traffic control signalization, maintaining minimum levels of retroreflectivity of highway signs or striping, traffic circles/roundabouts, safety rest areas, pavement markings, shoulder and centerline rumble strips and stripes, commuter carpooling and vanpooling, rail crossing improvements, installation of traffic signs, traffic lights, guardrails, impact attenuators, concrete barrier endtreatments, breakaway utility poles, or priority control systems for emergency vehicles or transit vehicles at signalized intersections. Read the full guidance at Title23USC.Sec. 120(c) (1)

### **TAP projects**

The Transportation Alternatives Program (TAP) is eligible for funding under the Surface Transportation Program (STP). The TAP was established under the Moving Ahead for Progress in the 21st Century (MAP-21) of 2012 and replaces the Transportation Enhancement Program (TEP), Safe Routes to School Program (SRSP), as well as the Recreational Trails Program (RTP).

### **Bicycle, pedestrian and transit projects**

The Mississippi Gulf Coast MPO will set aside 10% of the gulf coast's Surface Transportation Program (STP) funds for projects that will improve bicycle, pedestrian and transit accessibility and mobility in the region. An independent walkway project must be constructed on highway right-of-way or easement and will be constructed separately from a Federal-aid highway construction project.

### **MPO studies/projects**

The Mississippi Gulf Coast MPO will set aside \$400,000 in STP funds annually for the purpose of developing and implementing projects that directly support the MPO goals and objectives. Each year a project (or projects) will be selected by GRPC for funding through this program. Project(s) are based on needs identified through the agency's transportation planning process toward the provision of an efficient, safe and accessible transportation system for all modes. Projects considered for funding through this program include: various intersection improvement projects that enhance traffic flow and/or safety; projects that enhance transportation modal options (bike/pedestrian, transit, etc.); projects that improve roadway safety; intersection analyses; corridor studies; safety audits; and others.

### **TIP development process**

The TIP is updated every two years in order to allocate projected available funding to projects. Every six months GRPC will initiate an amendment and evaluation process to consider existing project funding increases and the addition of "new" projects funded with gulf coast STP funds based on the availability of existing funds in the financially constrained TIP. Recommendations are made by the sub-committee of MPO's Technical Coordinating Committee (TCC) and the full TCC and then adoption by the Transportation Policy Committee (TPC). Then the TIP is submitted to MDOT for approval and then Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) shall jointly find that each metropolitan TIP is consistent with the metropolitan transportation plan produced by the continuing and comprehensive transportation process carried on cooperatively by the MPO.

### **Public review**

As required in CFR 450.316, The MPO maintains a Public Participation Plan (PPP) that defines a process for providing interested parties with a reasonable opportunity to comment on the proposed TIP including at least one public meeting. This update included a public review period from July 3rd to August 19th. The MPO held 5 public meetings during that period. The draft was reviewed and adopted on August 25th at a joint TCC-TPC meeting. Supporting documents from the public review period are included as Appendix A.

For more information and when and how to participate in the public review and comment period visit [www.grpc.com](http://www.grpc.com) or contact Stephanie Plancich at [splancich@grpc.com](mailto:splancich@grpc.com) by calling 228-864-1167. You may also mail or make comments at the GRPC offices located at 1635-G Popps Ferry Road, Biloxi MS, 39532.

We publicized the TIP review period and meeting on the GRPC website. The display ad was published on Feb. 16th in both the Sun Herald and Ocean Springs Gazette. The City of Ocean Springs also made meeting information available in their website news section and event calendar. Fliers were distributed with meeting information to the apartment complex and local businesses along the Porter Ave corridor, and an email was sent to the MPO membership alerting them of the meeting and opportunity to provide feedback on the proposed TIP amendments.

## PUBLIC MEETING NOTICE

The MS Gulf Coast MPO is hosting an open-house style public meeting to review and discuss proposed amendments to our region's Transportation Improvement Program (TIP) & Public Participation Plan (PPP).

**Thursday, Feb. 16th, 4:00-6:00pm**  
**Val's Bar & Grill (503 Porter Ave, Ocean Springs)**

New projects being considered include:  
Diamondhead bicycle & pedestrian projects, Porter Ave Improvements in Ocean Springs, and Gulfport intersection improvements at Hwy 90 & 20th Ave.  
(A complete list can be viewed at [www.grpc.com](http://www.grpc.com))

Attendees were very supportive about the revival of the Porter Ave project. Business and property owners are looking forward to improved drainage as well as a more walkable corridor for the community. Copies of the written comments are located in the Public Outreach Binder. Diamondhead propsoed 3 new projects in this amendment period. They was some opposition from one councilperson which led to a larger than typical public participation response from citizen both in support and against the proposed projects. The MPO stopped taking commnets on feb. 21st, however, all comments recieved before and after that date, were forwarded on to the City for their awareness and consideration. Copies of all emails recieved and a summary of voicemails is in the Public Outreach binder. Here is a summary of those comments.

## Email Notices to MPO:

**NOTICE: TIP Amendment Process 12/8-1/20 - Message (HTML)**

**Stephanie Planchin**  
 NOTICE: TIP Amendment Process 12/8-1/20

**Notice that the MS Gulf Coast Transportation Improvement Program (TIP) amendment process is underway.**

Every 6 months the TIP is reviewed for any needed changes. The current submission period is 12/8-1/20. Complete schedule is below.

**Modifications** include minor changes like swapping years, correcting termini or data entry errors, splitting or combining an original project, changing the funding source, removing projects that have obligated.

**Amendments** are more severe changes including adding or removing a project from the TIP, major changes in design or scope, termini changes that will affect more community members and financial changes greater than 20% of the original project cost.

Amendments require a public review and comment period of no less than 10 days and resubmission of the TIP to MDOT and FHWA for approval.

The Amendment period is when you should notify David Taylor of additional needs, project changes and challenges and to ask for project removal or addition.

*NOTE: This is a mid-year TIP review. No new federal funds are available for allocation. However, if you have a project that is ready to go, please submit your application and resolution to David for inclusion in the review process. If a project is removed or new funds become available, your project may be considered.*
