

### Mississippi Gulf Coast Transportation Improvement Program

### Introduction

### Mississippi Gulf Coast MPO

The Metropolitan Planning Organization (MPO) is a federally mandated planning body responsible for transportation planning in the Mississippi Gulf Coast urbanized areas. The Gulf Regional Planning Commission (GRPC) serves as the MPO for the Mississippi Gulf Coast, coordinating transportation programs for all jurisdictions within the urbanized areas of Hancock, Harrison, and Jackson Counties. It is the lead agency responsible for developing and administering plans and programs to maintain eligibility and receive federal funds for the transportation systems in the Mississippi Gulf Coast area. The primary mission of the MPO is to develop and maintain a transportation planning process that is compliant with federal and state requirements, and supports the development and enhancement of sustainable multimodal facilities, programs and systems in the Mississippi Gulf Coast area. The Transportation Improvement Program (TIP) is one of the most important products of the MPO's planning process.

#### What is the TIP?

The Transportation Improvement Program (TIP) is a financially constrained program developed through an on-going planning process for addressing short-term transportation priorities that are consistent with the MS Gulf Coast's Metropolitan Transportation Plan (MTP), the long-range transportation plan for our region.

The MPO, in cooperation with the State(s) and any affected public transportation operator(s), shall develop a TIP for the metropolitan planning area. The TIP shall cover a period of no less than four years, be updated at least every four years, and be approved by the MPO and the Governor. However, if the TIP covers more than four years, the FHWA and the FTA will consider the projects in the additional years as informational. The TIP may be updated more frequently, but the cycle for updating the TIP must be compatible with the STIP development and approval process. (23 CFR 450.324)

The TIP is developed and approved by the MPO and is included, without modification, in the Statewide Transportation Improvement Program (STIP) following approval by the Governor. The TIP can be modified at any time subject to approval of the MPO technical and policy committees.

### **MPO STP funding**

The TIP includes federal funding for projects provided through the Surface Transportation Program (STP) and is administered through the Federal Highway Administration (FHWA). These funds are apportioned to each state's urbanized area through the Metropolitan Planning Organization (MPO). A formula is developed to apportion these funds to each state based on that state's urbanized area population as a ratio of the nation's total urbanized area population. With the exception of certain safety projects, TIP projects are generally funded using an 80% federal/20% local ratio. For a project to be considered for inclusion in the TIP, a commitment from the sponsoring agency to provide the required local matching funds is required.

### **Advance Construction**

The MPO uses a technique which allows a state to initiate a project using non-Federal funds while preserving eligibility for future Federal-aid funds. Eligibility means that FHWA has determined that the project technically qualifies for Federal-aid although no present or future Federal funds are committed to the project. After an advance construction project is authorized, the state may convert the project to regular Federal-aid funding provided Federal funds are made available for the project.

### **Public transportation operators**

The TIP includes projects funded by the Federal Transit Administration (FTA) including FTA Discretionary Grant Program (Section 5309), FTA Job Access/Reverse Commute Program (5316), FTA New Freedom Program (5317), FTA Rural Transit Program (Section 5311), FTA Transportation Planning Program (Section 5303), Handicapped Transportation Program (Section 5310) FTA Elderly.

Although not specifically listed in the Gulf Coast TIP, the Mississippi Department of Transportation (MDOT) must get approval from the MPO regarding the allocation of funds to projects in the Gulf Coast urbanized area from sources such as: Interstate Maintenance, Bridge Replacement, National Highway System, Surface Transportation Program, and others. More information on these funding sources can be found in MDOT's Statewide Transportation Program.

### Safety projects

The Mississippi Gulf Coast MPO will set aside 10% of the gulf coast's Surface Transportation Program (STP) funds for projects to enhance the safe mobility of all modes of transportation on the Mississippi Gulf Coast. The Federal share payable on account of any project for traffic control signalization, maintaining minimum levels of retroreflectivity of highway signs or pavement markings, traffic circles (also known as "roundabouts"), safety rest areas, pavement marking, shoulder and centerline rumble strips and stripes, commuter carpooling and vanpooling, rail-highway crossing closure, or installation of traffic signs, traffic lights, guardrails, impact attenuators, concrete barrier endtreatments, breakaway utility poles, or priority control systems for emergency vehicles or transit vehicles at signalized intersections may amount to 100 percent of the cost of construction of such projects; except that not more than 10 percent of all sums apportioned for all the Federal-aid programs for any fiscal year in acc

#### **TAP projects**

The Transportation Alternatives Program (TAP) is eligible for funding under the Surface Transportation Program (STP). The TAP was established under the Moving Ahead for Progress in the 21st Century (MAP-21) of 2012 and replaces the Transportation Enhancement Program (TEP), Safe Routes to School Program (SRSP), as well as the Recreational Trails Program (RTP).

### Bicycle, pedestrian and transit projects

The Mississippi Gulf Coast MPO will set aside 10% of the gulf coast's Surface Transportation Program (STP) funds for projects to improve bicycle, pedestrian and transit accessibility and mobility in the region. An independent walkway project must be constructed on highway right-of-way or easement. Independent walkway projects are constructed separately from a Federal-aid highway construction project.

### MPO studies/projects

The Mississippi Gulf Coast MPO will set aside \$400,000 in STP funds annually for the purpose of developing and implementing projects that directly support the MPO goals and objectives. Each year a project (or projects) will be selected by GRPC for funding through this program. Project(s) are based on needs identified through the agency's transportation planning process toward the provision of an efficient, safe and accessible transportation system for all modes. Projects considered for funding through this program include: various intersection improvement projects that enhance traffic flow and/or safety; projects that enhance transportation modal options (bike/pedestrian, transit, etc.); projects that improve roadway safety; intersection analyses; corridor studies; safety audits; and others.

### **TIP development process**

The TIP is updated every two years in order to allocate projected available funding to projects. Every six months GRPC will initiate an amendment and evaluation process to consider existing project funding increases and the addition of "new" projects funded with gulf coast STP funds based on the availability of existing funds in the financially constrained TIP. Recommendations are made by the sub-committee of MPO's Technical Coordinating Committee (TCC) and the full TCC and then adoption by the Transportation Policy Committee (TPC). Then the TIP is submitted to MDOT for approval and then Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) shall jointly find that each metropolitan TIP is consistent with the metropolitan transportation plan produced by the continuing and comprehensive transportation process carried on cooperatively by the MPO.

### **Public review**

As required in CFR 450.316, The MPO maintains a Public Participation Plan (PPP) that defines a process for providing interested parties with a reasonable opportunity to comment on the proposed TIP including at least one public meeting.

For more information and when and how to participate in the public review and comment period visit www.grpc.com or contact Stephanie Plancich at splancich@grpc.com by calling 228-864-1167. You may also mail or make comments at the GRPC offices located at 1635-G Popps Ferry Road, Biloxi MS, 39532.
