

# Multimodal Connectivity

**Objective:** Improve mobility and access for pedestrians and bicyclists.  
**Strategy:** Expand biking/walking infrastructure on mobility corridors and each city  
**Performance Measure:** Percent of urban federal-aid roads suitable for pedestrians.

## 658 Total Miles of Urban Federal-Aid Roadways

**30%**  
Suitable

**Objective:** Reduce pedestrian and bicycle crash fatalities and serious injuries  
**Strategy:** Expand biking/walking infrastructure on mobility corridors and each city  
**Performance Measure:** Number of non-motorized crashes
