Number of Non-Motorized Fatalities and Serious Injuries

State of Mississippi (Target)

- Number of Non- Motorized Fatalities and Serious Injuries: 271

2023 Mississippi Gulf Coast MPO (Actual)

- Number of Non- Motorized Fatalities and Serious Injuries: 54

“The MS Gulf Coast Metropolitan Planning Organization supports state performance targets.”

- This means that instead of setting our own separate transportation performance goals, the MPO aligns with and actively contributes to achieving the performance targets established by the Mississippi Department of Transportation (MDOT) within the metropolitan planning area, essentially working towards the same objectives as the state-wide transportation goals.
